NEIGHBORS ONLY PREVIEW · BRENTWOOD · NOV 4 TO 15

Bar preview guests: what to do

Invited neighbors, one party per hour window, 4 to 9 PM (no 6 to 7). First drink and meal on the house.

1. **Check the shared Google Calendar.**
   Each visit shows as "Bar Preview: Kelly and Sam" at its hour. That's who's coming and when. Plus ones are named.

2. **They arrive with a ticket on their phone.**
   It shows their name, date and window. They tap **I'm here**; the ticket flips to "Coming right up". Seat them and greet them by name.

3. **Bartender redeems it.**
   Tap **Bartender: redeem**, enter the team PIN, set drinks poured, tick the ID check (21+, valid government ID). Tap Redeem; the ticket takes a stamp. One ticket, one redemption.

4. **Take care of them.**
   First drink and their meal are on us, for the guest and their plus one. They were hand-picked; make it feel that way.

Good to know. No ticket, no preview; walk-ins are not part of it. A guest can move their time themselves on the ticket, and the calendar updates on its own. Questions on the day go to the manager, who has the backend and the PIN.
